EXPERIENCE

Klab - Kigali,Rwanda
2023

This is a start-up that I joined during summer holidays where we had different continuous tasks at the same time working on client recommendations which gave me skills and experience where I used my stacks to work on real world client projects.

Kitech -kigali,Rwanda
2023

This is Startups Academy initiated entrepreneurs &innovators program that will be providing skills to tech entrepreneurs and the software developers which I joined during summer that helped me build my portfolio and build some web development

Academic projects
2023

I have participated in many academic projects ,some were personal ,others were in my hackathons where I was a frontnd developer and a researcher.

Certificates

I got hacker rank certicate in java at beginner and intermediatedj level and free code camp certificates in responsive web design,java script algorithm and basics of web development
